Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed claims 146-233, which have been indicated as allowed (office action dated 2-7-07). Counsel indicated the possibility of amending claims 146 and 193 to include the limitation that the first and second fractions are segregated (as supported by the specification at [0227] and [0228] and figures 3-5). Examiner suggested cancelling all the other non-elected claims because by incorporating the limitation "segregation", claims 146 and 193 read on the non-elected species 5. Examiner also suggested correcting the dependency of claim 147 to depend on claim 146 & clarify if the percentages of fenofibrate in claims 146 and 193 are expressed as total weight of the composition or by total weight of fenofibrate. Applicants will file the response with the suggested changes and accordingly examiner will determine the patentability of the claims.
